PART I: PROJECT DESCRIPTION

Fair Description: The fair introduction should clearly and briefly identify your fair's topic (i.e. science, engineering, mathematics, robotics) and what need or problem it is solving within your organization, school and/or community. It should demonstrate the fair's reach and impact as well during and after the time frame of the grant.

Goals and Action Steps: Fairs should have general as well as specific goals that are impact-oriented, time-limited, specific, and practical. Action steps are the specific efforts which will take place to reach the goals set forth. Action steps should be focused, feasible, and appropriate.

Outcomes: Outcomes describe the level of achievement that occurs as a result of the outputs and action steps. Both should be measurable.

Please make sure all text is visible within each field.
